

AMARAVATI MARATHON

DEEP also known as Disease Eradication through Education and Prevention is a trust which has been active to foster the primary level of healthcare that if put in order will prevent diseases from occurring. These include actions that can be driven from an individual level to mass partaking for succeeding the goals enshrined. Initiatives for Mother and Child called MAITREE, Health Centres and Screening initiative called DEEP CLINICS, promoting healthy lifestyle by conducting DEEP MARATHONS -HAPPY SUNDAYS and DEEP for EARTH to spread the knowledge about hygiene – Water – Sanitation – Waste Management are a few programmes which have been implemented across the states of Andhra Pradesh, Jharkhand, Sikkim and Telangana.

Show your love and support for your city!
#RUN4CAPITAL

OBJECTIVE:

Amaravati marathon is a yearly marathon that symbolizes the might and emergence of the people's capital. The marathon will be a first-of-its-kind event that exemplifies the spirit of unity of the citizens of Andhra Pradesh in building India's youngest and newest city.

Achievements:

Overall 20,000 people have participated in Amaravati marathon on the first, second and third editions. School student's youngsters and senior citizens actively took part in the run. Apart from denizens of Vijayawada, there were many participants who had come down from other states
